

## School District MAEP Funding for FY2017

The columns below show the amount of state Mississippi Adequate Education Program (MAEP) funding each school district is allocated for the 2016-2017 school year, as well as the funding difference per district from FY2016 to FY2017, the amount of under-funding per district (the amount below what is required by state law), and the cumulative under-funding per district since 2008, the last time the MAEP was fully funded. Though MAEP funding statewide is flat for the coming year, individual districts could see their funding increase or decrease due to changes in their local contributions or their average daily attendance. Attendance changes could be due to shifts in enrollment or to challenges presented by the "63% rule," which penalizes schools when students miss a portion of the day due to appointments off campus, etc. Funding gains due to growth in enrollment typically are used to add teachers. "Level" funding does not cover legislatively mandated cost increases such as annual salary increases that state law provides teachers for each additional year of service.
